

The Semonkong Hospital
Trust's
2023
Veterinary Outreach Report

The Semonkong Hospital Trust is a faith-based, interdenominational organisation which envisages erecting a unique, eco-friendly, financially self-sustainable, 120-bed training hospital in Semonkong, Lesotho, coupling it with holistic community development.

The Trust hosts an annual week-long veterinary outreach since 2006, during which veterinary surgeons and nurses, veterinary and nursing students and other volunteers come to Semonkong to provide primary animal healthcare, treat animals and educate farmers in better animal husbandry.

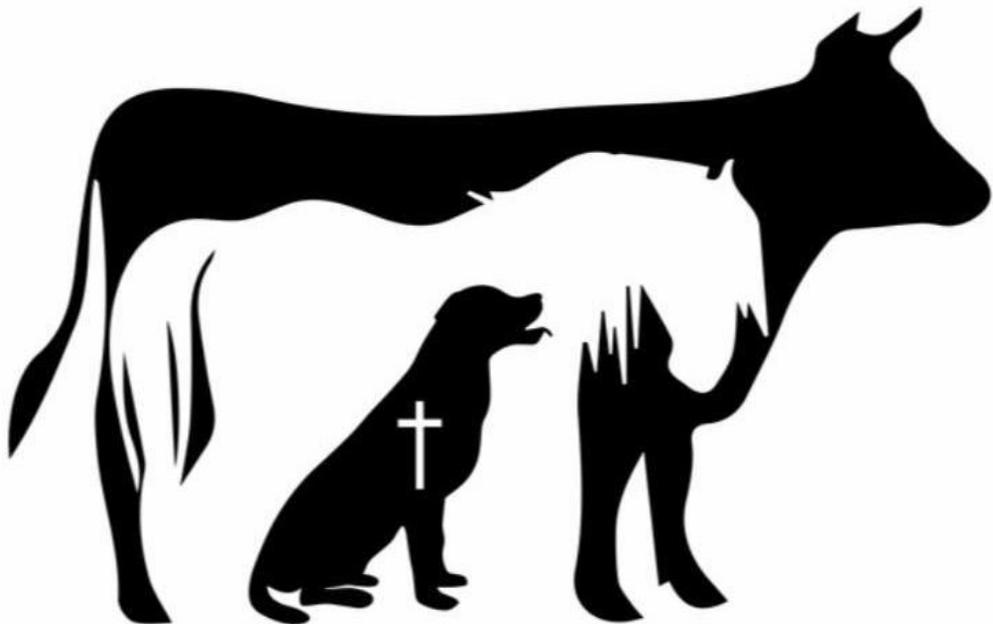

The outreach led by Banyane Makwebu and Wolfgang Beyer took place from the 18th until the 23rd of September 2023. 73 people came together to serve the community of Semonkong, Lesotho. The group consisted of 51 veterinary students from 3rd to final year and 22 qualified veterinarians and nurses.

We treated animals at the shed, on the future hospital grounds and had 3 satellite stations. Over the course of 4 days, we treated 22 268 animals in total. Deworming, saddle sore and fracture treatment, castration and spays as well as providing saddles and bridles were but a few of the services we were able to provide. We are absolutely overwhelmed with joy when thinking of the fact that we were able to help so many animals and with that the people around Semonkong.

We would like to thank the following individuals and companies from the bottom of our hearts for their contribution in making our 2023 outreach a huge success:

Ephesians 2:8-10 - For by grace you have been saved through faith. And this is not your own doing; it is a gift from God, not a result of works, so that no one may boast. For we are His workmanship, created in Christ Jesus for good works, which God prepared beforehand, that we should walk in them.
